

INTERIOR & EXTERIOR DOOR ASSEMBLY

Increase Productivity As You Ensure Quality
With...

The **DTI 5000** Automatic-Feed Screwdriver System

- Eliminate the repetitive motion of loading each screw
- The patented auto-feed design of the DTI 5000 is the most simplistic and reliable in the industry
- Special nose design creates positive hole center location of each countersink; allowing the operator to quickly position and properly seat each screw in the hinge
- No scratching or marring of the hinge

- Designed to accommodate your existing screws and hinges
- Please contact us to schedule an on site demonstration or trial
